“ Dr Pool was a favorite teacher of mine. I loved the science field and had him for several subjects. He made them interesting. We always enjoyed our visits when we would run into each other at stores. Will never forget his smile, storytelling, and funny little laugh. His memory lives on in my heart ❤️

“ When I was in high school, Bill was an inspiring teacher and a good friend. I enjoyed listening to music on his Hi-Fi system and remain an audiophile today. I wanted to do Science Fair projects in high school, but Lindsay school had no Science Fairs. Bill arranged that I could enter the district fair at East Central, and he drove me there both years I entered. I also was a finalist both years at the state and International Science Fairs. Without Bill that would have been impossible. Those events changed the course of my life. And I will be forever grateful for preparing me for MIT’s tough undergraduate academic requirements. Bill holds a very special place in my heart. I am so pleased that he had beautiful family of his own. My thoughts and condolences go to Jake and all the Pool family.

“ I’m so sorry for your loss. He was a good and blessed man. I met him in high school. He taught me about God and the Bible. I knew nothing, untrained in God’s ways. God Bless you (the family).
Always
